Welcome Message

SCANFEST 
New Delhi 2025

Dear Colleagues,

Greetings from **Scanfest'25** ! On behalf of the Scientific Committee, we extend a warm welcome to the capital of India "Delhi" for the **Scanfest'25** scheduled to take place on 2nd - 4th May 2025, at **Holiday Inn, Aerocity, New Delhi**. The conference is organized by **Imaging Masterclasses**.

The theme of the conference is **"Elevating Fetal & Women's Imaging: Clarity, Care, Precision"**

New Delhi is the capital of India and is famous for its rich and exclusive heritage and culture. Several unique and beautiful historical monuments, religious places, architectural wonders, delicious eateries and buzzing bazaars make the city an amazing tourist attraction to explore.

ScanFest 2024, where we converge to explore the complexities of fetal anomalies and interventions. As we embark on this three - days journey, we recognize the importance of our collective efforts in shaping the future of prenatal care. Through shared knowledge, innovative technologies, and compassionate care, we aim to make a tangible difference in the lives of expectant parents and their unborn children. So, let us embrace this opportunity to learn, collaborate, and inspire one another as we strive towards excellence in fetal Imaging.

Welcome to **ScanFest 2025**, where our dedication transforms possibilities into realities."

We eagerly anticipate your participation in the Conference.
Thank you, and best regards.

Warm Regards,

Genetics in Radiology and Fetal Medicine: The Pandora's Box

Duration: 90 Minutes

Workshop Objectives:

- * Explore the role of genetics in fetal anomalies
- * Decode the link between soft markers and genetic syndromes
- * Match imaging findings with the right genetic tests
- * Sharpen diagnostic decisions with real-life cases

Program schedule:

4:20-4:25pm.	Introduction and welcome:	Dr. Veronica Arora
4:25-4:45pm.	Genetics in care of fetus	Dr. Ratna Puri
4:45-5:20pm	Expert Panel Discussion: The appropriate use of genetic testing in fetal medicine scenarios Moderator: Dr.Sunita Bijarnia Panelists: Dr. Ratna Puri, Dr.Sangeeta Gupta, Dr.Neerja Gupta, Dr.Seema Thakur, Dr.Upma Saxena, Dr.Pooja Agarwal	
5:20-5:55pm	Real life case scenarios: (35 min) Highlights concepts of reverse phenotyping, fetal autopsy, VUS Dr.Sunita Bijarnia Dr.Seema Thakur Dr.Neerja Gupta * Dr. Vibha Jain * Dr. Monika * Dr. Rhea * Dr. Deepti	
5:55-6:00pm	Keytakeaways and conclusions	Dr. Sangeeta Gupta
	Audience Q&R
